GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

Profiling Sheet

Q.1: Write your career objective.

To build a successful career as Computer Science Engineer by applying my technical knowledge, problem-solving skills to develop efficient solutions. I aim to learn new technologies while growing professionally.

Q.2: Why do you want to be an engineer? Elaborate reasons.

I want to be engineer because engineering allows me convert ideas into reality. I enjoy problem solving, understanding how things works.

Q.3: Write about projects or internship you have done/ are doing along with the learning.

I worked on four academic projects, few of them are a Cloud computing file storage system where I learn about data base and cloud another one is Real life traffic flow optimization where we implement the algorithm to find the optimized path

Q.4: What would you consider a significant achievement in your life and why?

My significant achievement is successfully adapting to the engineering curriculum and developing strong interest in programming. I learned logical structuring of program debugging and teamwork.

Q.5: Write about a failure of yours which you consider to share. What have you learned from it?

One failure I experienced was not performing good in an exam due to improper time management. From this I learned the importance of planning and self discipline.

Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.

My strength include problem solving and adaptability. During programming assignment, I consistently working on debugging error until I found correct solution. I have also adapted quickly to new subjects and tools during my coursework.

Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?

One of my weakness is overthinking, which slow down decision making. To overcome my overthinking, I am practicing time management and meditation

Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

The most difficult moment was adjusting to college life and acadmic pressure. Working hard, patience and support from friends and family helped me to overcome this phase

Q.9: Apart from academics, what else are you interested in?

Make a separate list in terms of extracurricular activities, sports and any other interests.

Apart from academics I'm intrested in outdoor games and fitness activities and I also love listening to music.

Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am passionate about computer programming because it allows me to solve real world problems using logic and creativity.

Q.11: Describe yourself as an individual in 5 lines.

I am ambivert, friendly and eager to learn new things. I am constant learner and working on my self to become a better version of myself.

Q.12: What kinds of people do you enjoy working with?

I enjoy working with people who are positive, cooperative and willing to share knowledge.

Q.13: What kinds of people you don't want to work with? What would you do if they became your senior in your dream job?

I prefer not to work with people who are dishonest and uncooperative. If such people become my senior, I would become remain unprofessional, focus on my responsibility.

Q.14: What do you expect from your first job? Prioritize and write in order.

- Skill Development
- Supportive work environment
- Learning opportunities
- Career Growth
- Job stability

Q.15: In the past year, what have you been dissatisfied about in your performance?

I was dissatisfied with my inconsistency in time management. I am now working on creating schedules and setting realistic goals.

Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I would rate myself 3.5 out of 5. To improve, I am practicing speaking confidently and improving my vocabulary.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role model are my parents. I admire their hard work, sacrifices, honesty and dedication towards our family. I want to develop their discipline, patience and positive attitude so that I can become a responsible and successful.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive and motivating. They help me by sharing knowledge, encouraging me during difficult times and maintaining a positive environment.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

Leadership qualities including communication, responsibility and decision making. I applied these qualities during group assignments by coordinating task and ensuring timely completion

Q.20: So finally, tell us something more about yourself or introduce yourself.

I am Akshat Aswal, currently I am pursuing B.Tch Computer Science Engineering from Graphic Era Hill University. I am have strong intrest in programming. I have worked on projects where I gained practical knowledge of coding problem solving and logical thinking.

Along with technical skills, I possess soft skills such as communication, teamwork and positive attitude. I believe in hard work, continous learning. I am eager to explore opportunities that help me grow professionally while contributing positively to socity.
