Hiring Manager

Infosys

Bangalore, India

Subject: Application for Software Engineer Position

Dear Hiring Manager

I am writing to apply for the software Engineer position at Infosys Bangalore. I am a Btech Computer Science student with a strong foundation in programming, data structure and Problem solving.

I have experience in C, C++ and JavaScript along with web technologies like HTML, CSS and React. I also practice data structures and algorithm to improve my coding skills.

I develop Regis Intelligence, a cross platform AI productivity companion with 3D avatars, voice interaction, and long-term memory using OpenAI and Supabase with Next.js. I also build a cloud file storage system, a secure cloud native solution to explore database, creates ~~an~~ security and authentication.

I am interested in Infosys for its focus on innovation and learning. I am confident that my skills and dedication will allow me to contribute effectively.

I would welcome the opportunity to discuss.

Thank You

Yours Sincerely

AKshat Aswal.
